

x8 Active Multiplier 72-82 GHz: FXA-12-0001

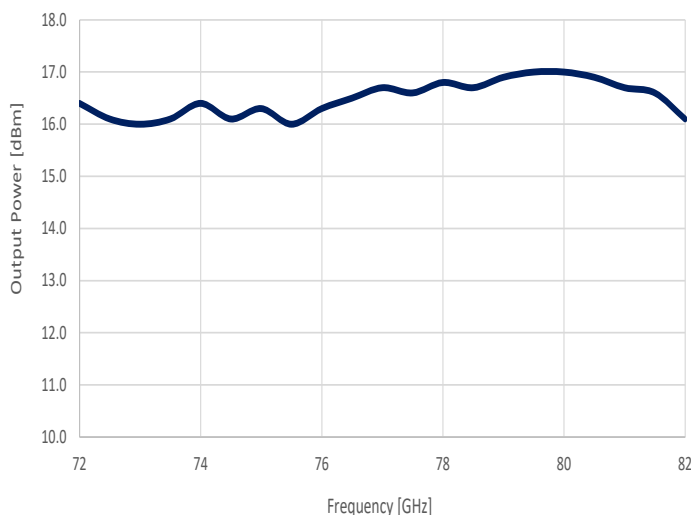

Farran's FXA-12-0001 is a general purpose MMIC packaged x8 multiplier in the WR-12 72-82 GHz frequency range

Key Facts:

- Wideband Coverage
- Compact Outline
- Low Power Consumption
- Low Harmonic Level

Output Power vs Frequency

APPLICATIONS

- Communication receivers
- Radar front ends
- Driver amplifiers
- Point to point communication

ACCESSORIES

- User manual

"We have made many Farran purchases, including amplifiers, mixers and multipliers. They are all high-performance devices and always meet our expectations. Farran supplied each component with comprehensive set of test results and a manual, which is not necessarily a given in this industry. Moreover, due to the accessibility of Farran's engineering team we were able to get CAD models of the devices prior to placing an order. This was a nice touch from the Farran team and helped with integrating the components into our systems so that we could meet our project's deadline with confidence."

Microwave Circuit Designer & Engineer, Multinational Electronic Test Equipment Manufacturer.

Product Specification

| Specification | Unit | Min | Typ | Max |
|-----------------------|------|-----|------------------|-------|
| Input Frequency | GHz | 9 | - | 10.25 |
| Output Frequency | GHz | 72 | - | 82 |
| Multiplication Factor | - | - | 8 | - |
| Pin | dBm | - | 10 | 13 |
| Pout | dBm | - | 13 | - |
| Harmonic Level | dBc | - | -40 | -20 |
| Supply Voltage | V | 6 | - | 12 |
| Current | mA | - | 720 | 850 |
| Input Port | - | - | K(f) | - |
| Output Port | - | - | WR-12 UG387/U | - |

SERVICES AVAILABLE

- Technical Support
- Installation and Setup
- Maintenance
- Application Support
- Hardware Support

For more information on any of our products or services please visit our website: www.farran.com

TECHNICAL SUPPORT

- Technical support provided directly by our knowledgeable and friendly engineers.
- Support for pre- and post-purchase: system configuration, installation and troubleshooting.

PRODUCT INSIGHTS

- For more product insights register at www.farran.com/customer
- Additional information: test data, CAD drawings and 3D models available.

WARRANTY

- Standard 1 year warranty.

Specification Definitions

Nominal value (nom.) – ensured by design, not tested. **Measured value (min, max)** – expected and warranted product performance obtained from the actual measurements of product sample. **Non-traceable measured value (n. trc. meas.)** – expected product performance obtained from the actual measurements of a product sample by means of using Farran's own equipment and methods. Traceable only to Farran laboratory equipment. **Typical data (typ.)** – value that represents the product specification met over 90% of bandwidth or a mean value. **Specifications without limits** – represent the warranted product performance; with values of no or a negligible deviation from the given value and as such have a secondary impact on the product performance.
